

Penn College offers four bachelor degree completion programs that provide the opportunity for individuals who have earned an associate degree to continue to study toward a baccalaureate degree in their field. Bachelor degrees available through Penn College Distance Learning are:

- Applied Health Studies
- Automotive Technology Management
- Dental Hygiene
- Technology Management

FORMATS

While distance learning will never replace the traditional classroom, we have learned that the distance learning classroom has many strengths of its own. Technology offers a number of options for delivering and receiving education at a distance, and courses at Penn College are delivered in a format that can work for you.
